

# **303-200 – LPI – LPIC-3 – Security**

## **Course 303-200: Linux Professional Institute LPIC-3 Security**

**for Exam LPIC3 – 303-200**

---

### **About this Course:**

- The LPIC-3 certification is the culmination of LPI's multi-level professional certification program. LPIC-3 is designed for the enterprise-level Linux professional and represents the highest level of professional, distribution-neutral Linux certification within the industry. Three separate LPIC-3 specialty certifications are available. Passing any one of the three exams will grant the LPIC-3 certification for that specialty. The LPIC-3 303: Security course covers the administration of Linux systems enterprise-wide with an emphasis on security.
-

# Course Goals/Skills:

- Cryptography
  - Access Control
  - Application Security
  - Operations Security
  - Network Security
- 

## Audience:

- This training is a followup for our LPIC-2 Courses, intended for participants interested in acquiring the LPIC-3 certification. The material in this training course covers all the exam requirements (and the necessary, fundamental topics needed to learn it from ground-up).
-
